- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult
 a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.

- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

AWARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.

- If you continue to have sore hands, wrists or arms or eyes during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- · Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the

As the time for Pac-Man's big 20th Anniversary bash approaches, Toc-Man decides to wreak havoc on Pac-Land's most popular resident. Pac-Man arrives home to find his party ruined and his friends missing. Chomp-Chomp the dog, Baby Pac, Pooka, Professor Pac, Pac Junior, and even Ms. Pac-Man have disappeared. As the situation begins to look more and more dim for Pac-Man, he discovers that Toc-Man has captured his friends and is holding them hostage at Ghost Island.

Toc-Man had planned a party of his own ...

Toc-Man's minions, in the middle of his celebration to commemorate the kidnapping of Pac-Man, warn him of the real Pac-Man's arrival...

The alarm rings...Toc-Man cannot allow Pac-Man to crash his party! Good luck Pac-Man!

The quest takes place entirely on Ghost Island, Toc-Man's headquarters. Your goal is to complete each level of Pac-Man World™, finding hidden Fruit and Pac-Letters along the way, facing enemies and Toc-Man himself to achieve a killer score!
